## About This Game

Take control of 5 units with unique gameplay and powers, and find your way out of this infinite maze ! Will you escape the infinite maze :

- By climbing on the walls and on the ceiling ?
- By destroying everything standing in your way ?
- By looking at the path out ?
- By chaotically spasming around ?
- By flying ?

No matter what you do, the clock is ticking, and you must be fast and decisive. Or you can lay back at the minimal difficulty. The game has a large array of options for you to fiddle with:

- How big do you want the maze modules to be ?
- Should the maze entirely reconfigure once in a while ?
- What kind of distortion lens do you want applied to the game ?
- How many gate types, and how frequently do they appear ?
- How often do you encounter new team members or new NPCs ?
- Adjust difficulty individually on morale costs and power costs
- Keep in mind that higher difficulty yields higher scores ! Are you going to be the best fhaMAZEin player to ever live ?
